

'Waves' SERIES

I am so fortunate that I get to see the ever changing ocean, every day. One day it's beautiful and enticing, the next fierce and angry. I love the changing moods, colours, tides and swells.

In the 'Wave' series I have tried to capture the energy and movement of the wave and although the paintings are abstract they have been created with true feeling and emotion, drawing on my own life experiences, memories and attachment to the sea.

The paintings are layered and have been created using acrylic and resin. It is a unique and sensational effect as it gives the art an almost 3d quality.

The 'Waves' Series will be exhibiting throughout Summer at her Art Studio and Gallery.
